MCN Healthcare Policy Library

There's No Need to Reinvent the Wheel

Policy Library is the most efficient way to develop new policies, review existing ones, and adopt procedures and best practices. It is the largest policy and procedure template library available with more than 80 manuals and over 18,000 customizable documents, all of which are regularly reviewed and updated by MCN's staff of clinicians and healthcare regulatory experts. Backed by more than 30 years of direct healthcare policy experience, Policy Library empowers you to stay compliant with accreditation and regulatory requirements.

The largest policy and procedure template library available

MCN Healthcare Policy Manager

Maintain Accreditation Compliance While Saving Time and Resources

Created by healthcare experts with decades of experience to ensure accreditation compliance, MCN Policy Manager's secure web-based, customizable document management software is the most efficient way to manage otherwise cumbersome policies. Policy Manager's robust document control workflow management software solution automates policy access, review, approval and attestation throughout your organization. Manager-assigned competencies track your staff's knowledge of policies and procedures. Easy to implement and intuitive to manage, the program's automated tracking and reporting ensure audit and accreditation compliance.

Never Miss a Critical Regulatory Update Again

StayAlert! helps you remain compliant or maintain compliance with accreditation and regulatory requirements. It is the most efficient way to stay on top of the ever-changing regulations, best practices and trends. MCN's clinicians and regulatory experts monitor and review changes in regulations; updates are clearly summarized for easy reading; and applicable policies and procedures are provided directly to your inbox. StayAlert! allows users to respond quickly and accurately to changes in regulatory requirements and communicate those changes to staff across your facility or health system.

Stay on top of the ever-changing regulations, best practices and trends

Dynamic Health

Complete the Policy and Procedure Process with Seamless Integration of Evidence-Based Skills & Procedures

EBSCO is a preferred partner of MCN Healthcare, and this partnership allows evidence-based skills and procedures from EBSCO's *Dynamic Health*™ to seamlessly integrate into MCN's Policy Manager, offering healthcare organizations a complete solution for their policy and procedure creation, upkeep and management needs. *Dynamic Health* provides a comprehensive collection of current, actionable and evidence-based skills and corresponding skills competency checklists intended to help nurses and allied health professionals master critical clinical skills. Content is systematically reviewed and updated to ensure currency and reflect best practices.
