

In partnership with EBSCO eBooks, Sage presents:

Super Quick Skills and Little Quick Fix series eBook collections

The **Super Quick Skills** and **Little Quick Fix** eBook collections give learners instant support and step-by-step guidance when they need it most. Each collection offers quality content that has been produced by experienced authors with tried and tested advice. Content is hosted on the **EBSCO eBooks** platform.

The **Super Quick Skills** series provides the essential building blocks learners need to succeed. Packed with practical, positive advice on core academic and life skills, they'll find focused tips and strategies to use straight away.

The **Little Quick Fix** books offer quick but authoritative answers to the problems, hurdles, and assessment points students face as part of a doing research methods module, formulating a project proposal, or coming up with a research design.

Both series:

- **Help bridge the gap** from school or college, so students can build core skills
- **Level the playing field**, enabling all students to progress in their studies
- **Short and focused** on just one topic, they make complex topics digestible
- **Give students instant support** and step-by-step guidance when they need it most
