*EBSCONET* ® *Subscription Management* helps you work more efficiently so you can save time and money.

With *EBSCONET Subscription* Management, you can...

Manage Subscription Workflows in One Central Location
Simplify each step of the subscription management process—title selection, ordering, e-access activation, claims, renewals, and evaluation—all within a single, intuitive online platform. Place service requests, view the status and communicate directly your customer service representative from within EBSCONET. Alerting functionality is also available.

Choose the Resources You Need
Pricing and access options are available for more than 360,000 titles from almost 100,000 publishers worldwide. Extensive title details, including bibliographic data, available formats, and publisher package information, are all updated in real time to make your selection process more efficient.

Analyze and Evaluate Your Collection
A wide variety of reports and online tools allow you to stay abreast of changes to your collection, track e-journal registration, activation, and licensing, and analyze expenditures, usage, and subject coverage.

Renew All Content with Ease
Handle renewals for e-journals, e-journal packages and print subscriptions via EBSCONET. Your renewal list will be displayed in an easy-to-use cart interface, ready for review for the upcoming subscription cycle. In addition, our E-Package Renewals tool allows you to easily make changes to your package title list and track spend in real time while ensuring that contract terms are enforced.

Eliminate Duplicate Work
A high level of integration among EBSCO's management and discovery tools and with your integrated library system makes subscription details available when and where you need them.
