GIDEON

Need information on infectious diseases and treatments? **Look inside.**

Ask your librarian for details on accessing **GIDEON**.

Use Gideon to:

- Generate a country-specific diagnosis based on symptoms and laboratory data
- Find the epidemiological profiles of diseases and lists of related diseases
- Review country-specific notes and pre-travel information for tourists and medical practitioners
- Review the pharmacology and usage of anti-infective drugs
- Review the pharmacology and usage of vaccines
