

Psychology Resources of the American Psychological Association (APA)

Advancing psychological knowledge to improve people's lives

The mission of the APA is to advance the creation, communication and application of psychological knowledge to benefit society and improve people's lives. Covering a wide range of psychology and behavioral health topics including hate crimes, human rights, workplace issues and immigration, APA publishes a suite of databases that provides faculty and students with an unsurpassed collection of indexing, rich full-text and video content.

“

“The benefit the APA brings is that we are an authoritative source so you can come into the databases and know that what you find is quality.”
